PRIVATE OCR

Text, from any image.

Photos, scans and screenshots. Cleaned, read and exported in seconds — entirely on your device.

01

Private by design

Recognition runs in your browser. The photo is never uploaded, and no third-party OCR API sees it.

02

56 languages

English, Hindi, Japanese, Arabic and more — combine up to three models on a single page.

03

Cleaner text

Eight automatic fixes repair common OCR mistakes, and exports are ready to use immediately.
